

Annual Report of Tribal Sub Plan (TSP) (2022)

Centrally sponsored development action plan for schedule tribes, DAPST (formerly Tribal Sub Plan) scheme runs by the Government of India with the main objective to promote Scheduled tribes' socio-economic development through family-oriented schemes by providing resources to the Scheduled tribe families. The main objective of the scheme is to enhance the income of the target population by way of various income generating schemes, technical-know how, skill development and infrastructure development. During the interfaces, the farmers were sensitized on various issues they confront in their day to day work due to their involvement in agricultural and allied activities, especially in the field of Cotton cultivation and agro ecological zone wise crops. Some of their queries and problems were taken up during the interfaces organized and were met through technological interventions. The activities carried out during 2022 include, capacity building on improved production and protection techniques of cotton, paddy, green gram, chickpea, groundnut and vegetable cultivation. Exposure visits, awareness trainings and on field demonstrations about new technologies in agriculture and allied activities were also organized. Similarly, vocational trainings on agribusiness, skill up gradation, integrated pest management (IPM), reduced tillage or conservation tillage farming, animal husbandry, integrated farming system (IFS) and created awareness on personal protection while spraying and use of agrochemicals among scheduled tribe (ST) farmers. Project also focusing on tribal women empowerment through awareness programmes, provide them technical assistance through capacity building and motivated them to generate income round the year through vegetable cultivation, plant nursery and other various activities. As part of the TSP programmes, inputs like improved seeds of cotton, paddy, green gram, chick pea and groundnut varieties, vegetable seeds (kit), fungicides & pesticides (IPM in cotton kit), CICR KVK cotton picking bags, pink bollworm pheromone traps and yellow sticky traps for sucking pests management were distributed to tribal beneficiaries from villages of Nagpur, Wardha, Yavatmal & Bhandara district of Maharashtra and Adilabad & Nagarkurnool district of Telangana.
